

THE BUILD BULLETIN

Crowton, Kingsley and Norley

Network finalisation

In the last bulletin we reported that there were three parts of the network left to complete. These pockets are nearby Nursery Park, Roddy Lane and Flaxmere. At the end of June, we were able to build and splice the network in Roddy Lane. We are now awaiting the test results which will allow us to service properties on Roddy Lane, Chapel Avenue, The Hurst, and Highbank Road. We're expecting to have these ready at the start of August.

Unfortunately, we are still waiting for the permissions required to complete works for Flaxmere and Nursery Park residents. Our teams are still working diligently with landowners to progress these urgently. Unfortunately, until we have these permissions secured, we can not connect the affected properties to the main network.

As the rest of the network is complete, this will be the final 'build bulletin' entry for Crowton, Kingsley and Norley. Future correspondence regarding the finalisation of the network will be sent to those who are directly affected by these wayleaves.

Connections continue

Over 1,200 properties across Crowton, Kingsley and Norley now have access to full fibre broadband! This means your community is now future-proofed with the latest telecoms technology.

Each week, we will continue connecting properties across all three villages. We're very glad to be receiving great feedback from the installation teams thus far:

'Luke and Mike did the install for us. They were great. Very friendly and professional. All working well so far. No hiccups' - Jo
