

THE BUILD BULLETIN

STOCKSFIELD AND MICKLEY

Thank you to those who joined Gary and the team at our event on the 11th of September. It was great to catch-up with residents and meet more friendly faces.

We appreciate the community's cooperation as we work to complete the network build. Our team is still working hard on site to complete the network without compromising on quality.

This month the team focused on completing civil engineering tasks to prepare the infrastructure which will host our fibre cables. Part of this work requires a temporary closure of the B6309 from 14 October for 7 working days. Residents in the immediately affected area will have received notification of this closure via post.

Duration:

14 October 2024 - 22 October 2024 (7 x working days)

Time:

09:00 – 15:00, weekdays.

Access:

24hr access for emergency vehicles and residents only.

The alternative route for vehicular traffic will be via the B6309, C258, A695 and vice-versa. We kindly ask for your cooperation during this time as this closure will keep both the community safe and our team safe. All traffic management has been permitted by the local authority and will be completed in accordance with industry standards.

If you're interested in a full fibre connection, Ian will be more than happy to answer any questions you have regarding our services. Please give him a call on 07761 800 188 to discuss.
